PROFILE

Motivated and skilled Junior .NET Developer with over a year of hands-on experience in building and optimizing web and desktop applications. Eager to contribute technical expertise in a collaborative environment while continuing to expand knowledge in the latest technologies and best practices. Passionate about problem-solving, clean code, and delivering high-quality solutions that drive business success

EDUCATION

South Valley University

Sep 2021 – Jun 2025

Computer Science

Qena, Egypt

Bachelor of Science in Computer Science, 4th Year Student

PROFESSIONAL EXPERIENCE

Artificial Intelligence Training

Aug 2022

Received comprehensive training in Artificial Intelligence at the Information Technology Institute (ITI). gaining hands-on experience in machine learning

Qena, Egypt

Participation in "ECPC" Egyptian Collegiate Programming Contest

Aug 2022

I participated in the annual programming competition held at the Arab Academy for Science and Technology to improve my problem solving skills.

Alexandria, Egypt

Participation in the Computing and Artificial Intelligence Forum held

May 2023

Engaged in discussions and workshops on the latest trends and advancements in computing and artificial intelligence. Networked with industry professionals and gained insights into innovative technologies and methodologies.

kafr El sheikh, Egypt

Web Designer internship at NetArabia

Sep 2023 – Oct 2023

Developed and maintained web pages, improving user experience and interface design. Collaborated with a team of designers and developers to implement new features and optimize website performance

Qena, Egypt

Software Engineer

Feb 2024 – Jul 2024

Worked as a desktop application developer, focusing on creating and maintaining robust desktop software solutions. Involved in the full software development life cycle, including planning, coding, testing, and deployment. Contributed to the improvement of code quality and performance, and collaborated with cross-functional teams to deliver high-quality products.

Remote, Part Time

PROJECTS

PharmaEasy Management System (Desktop Application)

Aug 2023 – Sep 2023

A comprehensive desktop software for pharmacy management

- **User Management:** Secure user account creation and role-based access control for pharmacists
- **Inventory Management:** Real-time monitoring of drug inventory
- **Sales Tracking:** Detailed sales records with the ability to generate profit and loss reports.
- **Reporting:** Customizable reports for sales, inventory, and supplier performance

Facilities protection (.Net 6)

Dec 2023 – Feb 2024

This application ensures real-time verification of venue licenses, demonstrating my commitment to delivering effective solutions

- **Facility Management:** Comprehensive management of each facility's details.
- **License Renewal Tracking:** Monitors and tracks the renewal status of facility licenses.
- **Expiration Alerts:** Automated notifications for licenses that are about to expire or have already expired.
- **Attachment Management:** Manages and tracks old attachments and documents related to each facility.

E-Commerce API (ASP Web API .Net 6)

Feb 2024 – Mar 2024

ASP.Net Core Web Api App, To implement CRUD APIs for E-Commerce system.

- **Product Management:** CRUD operations for adding, updating, and deleting products.
- **User Management:** Handles user registration, authentication, and profile updates.
- **Order Processing:** Manages customer orders, including order creation, status updates, and history.
- **Category Management:** Allows categorization and management of products.
- **Secure API:** Implements authentication and authorization to ensure data security.
- **Documentation:** Comprehensive API documentation using Swagger for easy integration.

Examination Management System "EMS"

May 2024 – Jun 2025

University System for Managing Exam Committees, .NET 8 (Backend), ReactJS (Frontend)

- **SuperAdmin Access:** Centralized control for all exam committees across the university.
- **FacultyAdmin Management:** Full management capabilities for individual faculty exam committees.
- **Exam Committee Scheduling:** Creation and management of comprehensive exam schedules.

- **Role Distribution:** Efficient allocation of students, observers, and invigilators to committees.
- **Schedule & Data Access:** Role-specific access to schedules and data for students, observers, and invigilators.
- **Admin Dashboard:** Centralized platform for administrative control and insights.
- **Email Communication:** Integrated email system for streamlined communication.

NexaLearn-Platform 

Jul 2024 – present

Comprehensive Educational Platform , ASP.NET 8 MVC

- **Curriculum & Quiz Management:** Organize course content and create quizzes with automated evaluation tools.
- **Student Enrollment & Material Distribution:** Students register for course sections and receive relevant materials.
- **Interactive Chat:** Facilitates communication within course sections.
- **Admin & Instructor Tools:** Manage courses, sections, materials, and student performance.

TECHNICAL SKILLS

• C#	• Problem Solving	• OOP
• Data Structure	• SQL Server / DBMS	• LINQ
• Entity Framework Core	• MVC	• C++
• HTML5	• CSS	• SOLID
• Web API	• Design Patterns	• Algorithms
• Clean Architecture	• SignalR	• Design Architecture

VOLUNTEERING

Instructor	Qena, Egypt
Volunteered as a Instructor in C# .Net in Support Community in my College	
Head Technical	Qena, Egypt
Head technical at Support Community as Student Activity	

LANGUAGES

• English	• Arabic
